OBJECTIVE

Seeking employment or internship as an Entry Level JavaScript Programmer to use recent experiences in designing software applications and compelling customer interfaces.

EDUCATION

Certificate – JavaScript Immersive Full-time Program | Eleven Fifty Academy

MAY 6 2019 – JULY 26 2019

Completed all course objectives early or on-time and was placed in the highest performing cohort for the final project.

Independent Studies | Ivy Tech Community College

AUGUST 6 2015 – MAY 26 2017

Took various courses in several different topics to help determine my major, which successfully led me to the pursuit of a career in coding.

EXPERIENCE

Percussion Instructor | Franklin Community High School

JULY 14 2018 – APRIL 12 2019

Worked with a variety of students from all different experience levels, backgrounds, and mindsets. I was responsible for one-on-one private lessons as well as running entire ensembles of up to 50+ performers for hours at a time.

Barista/Trainer | Starbucks Coffee

MAY 7 2018 – APRIL 30 2019

Provided outstanding customer service to people in the panicked throes of caffeine withdrawal, and trained new hires to understand the processes of our store.

SKILLS

- Solid proficiency with HTML, CSS, JavaScript
- Git and GitHub for version control
- Familiar with common APIs
- Versed in React and Angular
- Driven to expand understanding
- Experienced leader and teammate

ACTIVITIES

The hobbies I pursue and the career I am building have been invaluable to satisfying my constant desire to learn. I build computers in my spare time, travel the country, and still find time to volunteer to teach after-school music programs around the Midwest.
